For the last 3 years, I have focused my work in UX design because this is a bridge between business and design. In fact, I have a large experience as a consultant of design and as an **infographer** because of my motivation to work into the intersection of these two fields. As a result, my abilities are:

- * Analyze people, data and processes to build solutions
- * Habitual use of Adobe Creative Suite
- * Prototype with Sketch and Adobe XD
- * Apply principles of colours, layout and typography
- * Create with HTML5 and CSS3

PROFESSIONAL EXPERIENCE

Entrepreneur & Consultant. Heyboo Design Ltd. 2009-2017

- * Building strategical projects of communication
- * Serving to small businesses and governments
- * Working as a partner of advertisement agencies
- * Creating graphic design and developing web pieces
- * Building ux/ui solutions

Second Editor of Art. Correio Braziliense. 1998-2016

- * Designing infographics, illustrations, pages and covers
- * Streamlining new processes to the newspaper production
- * Coordinating the team of almost 40 artists for 9 years
- * Reaching 6 different international awards
